Vision & Mission

Vision

- To be the preferred choice of students who aspire to become Engineers of the highest calibre.

Mission

- Provide world-class physical and digital infrastructure and learning environment.
- Develop the competencies of students to make them job-ready and entrepreneurs.
- Facilitate mental, physical, emotional and spiritual development of students and ensure their holistic development.
- Preserve the environment through the implementation of eco-friendly and sustainable practices.
- Serve the community through skill development and other need-based services.
- Establish sustainable partnerships with industries and R&D laboratories for mutual benefit.

1.INTRODUCTION

The Institution is fully aware of the importance of green environment and cleanliness by maintaining the verdant green on the campus, covering more than 70%. The Institution has planted many trees to maintain carbon dioxide neutrality to the extent possible. We have perfect landscaping and we recycle the grey water to water the plants within the campus.

2.OBJECTIVES

- We are concentrating in promoting waste management among communities in and around Pudukkottai towards Refuse, Reduce, Reuse, Repurpose and Recycle waste.
- We follow an ideal Green Practices and transfer technology in green practices for sustainable practices and instil best practices among youth.
- We are very keen in creating awareness about waste management, reducing waste, segregation of waste, and recycling. Safeguarding clean air and water and soil conservation for future generations.
- Alternative employment opportunities are promoted in Waste management, Plastic and paper etc.,
- Regular practice is being followed in implementing the cleanliness and hygiene campaign towards Zero waste generation.
- Various models in recognizing clean water accessible are put out for all individuals.
- Make sure that community intervention is for understanding the importance of keeping the surroundings clean through various feasible technologies.
- Pilot affordable technologies which help rural communities for transformation and promotion of sanitation and hygienic measures.

3.DESCRIPTION OF POLICY

- Management is evincing more interest on promoting plastic free campus. Everyday morning and evening, the garbage is collected by appointed people to maintain the cleanliness of the campus. Dustbins are provided in a regular distance throughout the campus.
- The Institute promotes sound environmental management policies and practices by following the guidelines legislated by the State and Central Government bodies. In addition to this, the replacement of CFL and conventional tube lights with LED bulbs is made.
- Our Institution will ensure that training programmes on environmental-related issues is conducted to create awareness among Faculty, students and the neighbouring community.
- The rapid urbanization and economic development at a local, regional and global level have led to several environmental and ecological crises.
- In this background, it becomes essential to adopt the system of the Green Campus for the Institution, which will lead to sustainable development.
- Mount Zion College of Engineering and Technology works on the 'Green Campus' facets, including Water Conservation, Tree Plantation, Waste Management, Paperless Work, Alternative Energy and Mapping of Biodiversity.
- On visiting the campus, one can experience the aesthetic and elegant buildings, splendid lawns, spacious sports grounds and warm inviting green environment which are conducive to teaching-learning activities.
