Dear Alumni,

Programme Outcomes (a-k): The Programme outcomes are the skills and knowledge which the students have at the time of graduation. The outcomes essentially indicate what a student can do from subject-wise knowledge acquired during the programme. The outcomes may be program specific within broad categories given in the following. Generally, the engineering programmes must demonstrate their graduates have following capabilities listed below:

For each of the Program Outcomes (a-k) given below, which of the five statements describes your understanding of your field, Please include any comments.

Q1: Before each statement, indicate the answer 1 through 5 which most closely fits this statement for you:

1: Strongly	2. Disagree	3. Neutral	4. Agree	5. Strongly Agree
-------------	-------------	------------	----------	-------------------

My UG education at **Mount Zion College of Engineering & Technology** has given me:

PO	Answer	Programme Outcomes
a	1	an ability to apply knowledge of mathematics, science, and engineering.
b	1	an ability to design and conduct experiments, as well as to analyze and interpret data,.
c	3	an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environment, social, political, ethical, health and safety, manufacturability, and sustainability.
d	1	an ability to function on multidisciplinary teams.
e	4	an ability to identify, formulate, and solve engineering problems.
f	1	an understanding of professional and ethical responsibility.
g	1	an ability to communicate effectively,.
h	4	the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context,.
i	1	a recognition of the need for, and an ability to engage in life-long learning,.
j	4	a knowledge of contemporary issues, and
k	1	an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Q2: Could you identify a single course (Subject: e.g. Computer Networks) taken which is most beneficial to your present position?

Signals and system. It is useful in my present position

Q3: Could you identify a programme (engineering branch: e.g. CSE) that you wish you had taken?
